

LIVING SPACE

DESIGN – **FIT FOR PURPOSE**

Give yourself a score out of 10 for each of these design principles

You need spaces to come together and to be apart.	
You need warmth in winter and cool in summer.	
You need to feel cosy and intimate in private areas.	
You need to feel more expansive and generous in shared areas.	
You need to have comfort, safety, security, sanctuary.	
You need connection with outdoors, light and views.	
You need the sense of belonging and joy that comes with their home.	
You need contextual markers for work, play and rest.
